JPS Team Members:

What incredible caregivers we have at JPS! You have to take pride in working with people who do everything possible to save a life, especially when it appears all the odds are stacked against them.

With permission from her family, I am pleased to tell you our JPS team member who was injured in the Jan. 20 elevator incident was discharged last week to an outside care facility to continue her recovery. I ask that you continue to respect the family's privacy as they transition into this next phase of their lives.

I could not be more humbled by the extraordinary lengths to which everyone went to save the life of one of our own. From the remarkable skills of our physicians, nurses and spiritual care team, to tending to the daily comfort of our team member and her family, to creating giant cards, the compassion and kindness you extended make me so proud. And I am overwhelmed to know the same effort and care is shown to every person who receives their care at JPS.
